OLD RING MAIN DECOMMISSIONING INVESTIGATIONS IN ARORANGI

The new water ring mains in Rarotonga are now live. Properties in Arorangi should be receiving water either directly from the new ring main or via a sub-main connected to the new ring main. Before the old ring main is shut off for good, the Te Mato Vai Project Management Unit (PMU) needs to understand which properties are still connected to the old ring main.

The PMU and Infrastructure Cook Islands will be undertaking investigations in Arorangi, resulting in a temporary shut down of sections of the old ring main on the following dates and times:

- **Monday 25th June 9.00am - Wednesday 27th June 10.00am: from Rarotonga Hospital Road in Blackroad along the Aratapu to Sheration Bridge Western End**
- **Wednesday 27th June 9.00am - Friday 29th June 10.00am: from Hospital Water Tank Road intersection along the Arametua to Ngatoo Intake Road.**

If your property, including vacant property, is within the affected areas, we need your help to check whether:

- Your house or vacant property is receiving water
- Your water tank is being filled with water

IF YOU ARE NOT RECEIVING WATER DURING THE INVESTIGATION PERIOD identified above, please call the PMU Office on 28851 (Mon - Fri, 8am - 4pm), or after hours Peter John 79517, Tangi Kauvarevare 54017, or Monty 54098. We will work with you to ensure you have enough back-up water supply during this temporary investigation period.

For any other water related issues please call Infrastructure Cook Islands, WATSAN Unit on 20-321.
